# DEMANDING ENVIRONMENTS Demand MSI

For the highest quality products built for the most demanding environments, trust Rice Lake's premier brand of overhead weighing solutions—MSI.

## **Durability**

Rice Lake's MSI products are made tough—delivering in-process weighing technology with products available for use in high-temperature, high-torque conditions.

## **Safety**

MSI product experts incorporate safety standards into application solutions, assuring requirements are exceeded in hazardous overhead weighing environments.

## **Quality**

Since 1977, MSI has pioneered the weighing industry with a comprehensive line of niche technologies including combining strain gauge and microprocessor technologies into self-contained portable weighing equipment.
