Database Editor

Communication Settings for Download

Interchange database management software is used to set up a custom job file for each database you need to export. Manually or automatically run the job file by setting a predetermined time using Windows® Task Scheduler.

Part Number/Price

Part #	Description	Price
72809	Interchange database software	Consult

Export or Import Data

Standard Features

- · Edit and manage databases
- Set up using an export job wizard
- Connect using RS-232, RS-485 or Ethernet TCP/IP
 Program will connect to the indicator and upload
- current database structure
- Select the desired database
- Export database table file types: delimited text, XML, XLS, HTML
- Compatible with 920i $^{\ensuremath{\texttt{@}}}$ and 1280 indicators

Specifications

Minimum System Requirements: Windows® 7 or newer
