

### Standard Features

- One or four load cells (as noted)
- NTEP Certified (up to 5,000e) and capable of up to 30,000d for Non-NTEP
- Compatible with all Rice Lake and Combics indicators (30,000d not guaranteed with Rice Lake instrumentation)

### Optional Configurations:

- Complete selection of pit frames for flush mounting available
- R2 - electropolished 316T, stainless steel
- T1 - pressure lift system (only available for II platforms and larger)
- Drive-on ramps
- Pit frame
- Mild steel painted or 304 stainless steel
- 304 stainless steel platters

### Specifications

**Cable Length:**  
10 ft/3 m-up to 1,000 lb 30 × 30 in  
20 ft/6 m 1,000 lb and above 36 × 36 in

**Operating Temperature:**  
14 °F to 104 °F (-10 °C to 40 °C)

**Height:**  
Adjustable feet

**Warranty:**  
Two-year limited  
Accessories: One-year limited
