# HOME HEALTH SCALES

RICE LAKE'S HOME HEALTH SCALES are ideal for monitoring and maintaining your weight at home. Choose from our professional digital or dial models to meet your needs.

The DHH-10 digital home health scale is designed to efficiently weigh up to 440 pounds (200 kilograms). Users can alternate between pound and kilogram weighing with a simple press of a button. Featuring a bright LCD display and tempered glass weighing surface, the DHH-10 is battery operated and indicates to users when power is low. A Bluetooth model is also available for more personalized health monitoring. The DHH-10BT can sync with the AccuroFit application on Apple and Android mobile devices.

The RL-330 Series includes the HHL that displays weight in pounds, and the HHD that displays in pounds and kilograms. Each steel base features a large non-slip platform and a nearly 8-inch diameter dial. The rounded form can be positioned in a corner providing easy access. Bright markers can be used for record and goal keeping.
