

LIFT TRUCK WEIGHT

APPLICATION BRIEF

STANDARD FEATURES:

- Mild steel painted weight, ASTM Class 6 tolerance
- Enhances safety—driver doesn't need to get off of the lift truck to check scale accuracy.
- No chains, hooks or spreader bars
- Designed for pancake/cargo scales and fork truck scales.
- Provides faster accuracy verifications. Drive in, lift, set back down and drive away.
- Check lift truck scale accuracy at the start of every shift for quality assurance.
