

MITSUBISHI WRAP

Crystal Clear Quality Control

Presentation is Everything!

Diawrap® film is specifically designed for Ishida automatic wrappers to achieve the best performance and increase efficiency in backroom operations.

Mitsubishi film

Traditional Film

Benefits

- Superior transparency
- Tightly wrapped packages
- Precise manufacturing of each roll ensures consistency and efficient film roll changes
- Enhanced, stable wrapping performance due to low air content inside of the roll
- Higher flexibility achieves perfect presentation without damaging trays
- Less force is needed to stretch the film
- Flexibility in both directions reduces wrinkles
- Anti-fogging enhances the value and appearance of products
