Disabling Calibration Message

Product: Healthweigh Indicator OIML Class III

Issue: Unwanted calibration prompt

Solution: Set next verification date (MONT) to 0

Manuals are available from Rice Lake Weighing Systems at **www.ricelake.com/manuals**

Warranty information is available at **www.ricelake.com/warranties**

Figure 1. Healthweigh Indicator Display

A CNTL message may appear on an OIML Class III indicator to alert the user that it is time for a calibration. Use the following procedure to disable the CNTL calibration message:

1. Power on the indicator.
2. Immediately hold the **ENTER** button for three seconds until firmware ID number flashes.
3. Press the **BMI** button. Verification menu displays.
4. Press **ENTER** to access Verification menu.
5. Press **ENTER** to access MONT parameter.
6. Use the BMI and arrow buttons to set the MONT parameter to 0.
7. Press **Enter** two times to save.
8. Press **Enter** to select DONE. Scale will reboot after three seconds.

NOTE: The CNTL reminder is disabled after the procedure is complete. Menu may still continue to display 11 in the MONT parameter after successful procedure.
